Technical Skills

- JavaScript
- AngularJS
- React
- jQuery

- HTML5
- PHP
- SQL
- Mongo

- Express
- Passport
- Bootstrap
- CSS3

- Node.js
- Git
- npm
- AJAX

Professional Experience

Prime Digital Academy   **June 2017 - October 2017**
Full Stack Software Development Student

Individual Project: "PC It Together"

- Assists users in building a computer to ensure their desired parts will result in a functioning machine, application will notify users of any capability issues.
- Users may select from a dropdown list of parts for their desired build, and may share builds where all users may view.

Technologies Used: AngularJS, Passport, Node.js, Mongo, Express, Angular Material, JavaScript, SweetAlerts2, and FileStack API.
Hosted on Heroku: *https://pcittogether.herokuapp.com/*

Group Project: "Belwin Citizens Science App"

- Our client Belwin Outdoor Science requested an application to convert their paper data collection to an easy to use mobile application.
- The single page application allows the user to collect data while they explore through the outdoor sites and retains data stored if the device goes offline or leaves the application.
- Collaborated and communicated in a team of five to complete the objectives of the application.
- Primary responsibility to complete requests the server side to display for users once observations have been submitted, which makes it easier and quicker for teachers to view data, opposed to conducting counts with all the students.

Technologies Used: AngularJS, Passport, Node.js, SQL, Express, Angular Material, JavaScript, Material Design Lite, Moment.js
Hosted on Heroku: *https://belwincitizenscience.herokuapp.com/*

Associated Global Systems   **May 2014 - April 2017**
Customer Service Representative   *November 2014 - April 2017*

- Worked with a group of three others in the Special Accounts department, communicated thoroughly with vendors, freight forwarders and end customers for fast and efficient shipment transit.
- Main responsibility was routing shipments with suppliers for day and night operations.
- Assisted in resolving damaged, missing and delayed shipments issues.

Customer Service Representative   *May 2014 - November 2014*
(Contract through AppleOne)

- Tracked and reported transit of shipments.
- Responsible for detailed notes of each shipment on a daily basis for the Best Buy account.
- Point of contact for delivery agents to ensure weekly deliveries were completed within the proper timeframe.

Target (Contract through AppleOne)   **May 2013 - September 2013**
Data Entry Specialist

- Assisted with the transition of the application upgrade by ensuring their history of data was correctly transferred and investigated and addressed issues of incomplete and incorrect data.
- Communicated and worked with a diverse group of Data Entry Specialist to ensure the project was completed to meet the deadline.
